

Job Posting

DATE: 01/31/2018
POSITION: SONOGRAPHER (Ultrasound Technologist)
Compensation: Competitive
REGISTRIES: RDMS(AB) and RVT or RVS
STATUS: Full-time or Part-time or PRN
HOURS: Flexible Hours
LOCATION: Oklahoma City, OK
REPORTS TO: Area Technical Supervisor/Ultrasound Technical Director

DUTIES:

- Perform ultrasound and Doppler studies on patients as assigned following the company's mission as "the patient first people". See Job Description
- Includes uploading images into PACs, communication with interpreting physician, reviewing reports and ensuring timely reporting back to ordering physician.
- If working during a shift where there is no dispatcher on duty, technologist is also responsible for calling summary results to customer and fax hard-copy results to client.
- Keep accurate documentation of services performed.
- Properly care for and maintain company property, including vehicles, phones and equipment.
- Be professional in verbal & written communication and personal appearance.
- Promote the service to build up additional business.
- Other duties as assigned

REQUIREMENTS:

- RDMS(AB) and RVT or RVS or equivalent.
- High initiative, able to work independently, yet as part of a team
- Customer service focus
- Flexibility-- able to deal with weather, traffic, vehicle and equipment challenges in a fast paced environment
- Excellent driving record. Position requires significant driving. Vehicle provided.
- Drug Free
- Experience in portable x-ray or ultrasound preferred.
- All candidates must pass a background check.

TO APPLY:
